

S.N. 09/807,332

REMARKS

The Applicants have reviewed the Quayle action dated October 6, 2004, and note with appreciation the allowance of claims 9-12, 16-20, and 24-25. In response to the Examiner's requirements, the Applicants amend the Specification to include the requested priority claim, and to add the Abstract of the Disclosure. The Applicants also present formal drawings in response to the Examiner's request. The drawings are substantially unaltered from the informal drawings previously filed, and merely present formal drawings to address the Examiner's objection to line quality and margins as set forth in form PTO-948 included with the Office Action dated December 18, 2002. No new matter is added.

It is believed that the application is now placed in condition for allowance. Accordingly, issuance of a formal Notice of Allowance is earnestly solicited. If any minor issues remain, however, the Examiner is respectfully requested to contact the Applicants' attorney at the telephone number of record in order to expedite the prosecution of this patent application.

Respectfully submitted,

KING & SCHICKLI, PLLC
